

Sculptured by..... Stefanie

Bio Sculpture Gel is applied to the natural nail and doesn't chip or wear away like regular nail polish. It is shiny and flexible and looks as thin and natural as your own nails,
only better !

Bio Sculpture Gel is a nail treatment that strengthens and promotes the growth of natural nails. The gel is applied onto the nail and is cured under a UV lamp in 2 minutes: therefore no time is wasted waiting for the nails to dry. The gel is removable without damage to the nail by Soakinf Off in less than 15 minutes.

Ideal for holidays as it won't chip or break and lasts for up to 3 weeks.

Shellac is a long lasting manicure. It has a mirror finiah, zero drying time and no nail damage. It is removable in 10 minutes.

French Polish or a choice of many colours available.
